

**liquirizia** is a multi-unit chair. Modular or endless depending on your greediness, as the most appetizing candy you would never give up savouring.

liquirizia will talk about you and the lines of your heart, following routes each time different, each time...altreforme.

Romantically back against back in never ending relations of incurable lovers.

Meeting and conversation rings. Choreographic round dance with ever-new patterns.

Innocent sin of gluttony for real connoisseurs.
